

What gives? You have time to Facebook post about Pizza and Tweet about "Wendy's" within an hour of each other yet you can't respond or acknowledge my question in your Facebook inbox that was sent nearly an hour BEFORE your retarded updates?? Some friend. "I've honestly never had anything against you, dude," BULLSHIT, FUCK YOU SHIT!

You even privatized / removed our "Over and Out" music video on the SR channel, the only one that had me credited. WTF?!

Derek is a cunt rag; "How do you want credit?" I tell him and they don't fucking credit me or Jeremy ANYWHERE for making your first ever music video. "I had no control over uploading it" (Andrew Blank) BULLSHIT you didn't! You own and operate the SR channel, do you NOT??! FUCK YOU! I'm going to make you regret ever stabbing me in the back by lying saying you never had the "Anymore" instrumental.... I waste 2 months trying to get in touch with Andrew Wade when you say you never heard anything back from him, yet I get a response after ONE DAY.
